Dear Records Access Officers:

The press release concerning Micron's planned chip fab project for Central New York issued by the Governor's press office on October 4 includes specific estimates of the project's impact on job creation, economic growth, state revenue and more. The release sources these estimates to "an economic impact study by Regional Economic Models, Inc. (REMI)."

Pursuant to the Freedom of Information Law, I hereby request a complete copy of the referenced REMI economic impact study, and all information provided by the state to REMI concerning the planned Micron project.

Please transmit the requested information electronically or via a portable storage medium. As part of this FOIL request, please also provide the name and contact information for the appropriate person to contact with questions about the requested information.

You can email me at data@seethroughny.net, or call me at 518-434-3100 if you have any questions about this request. Thank you very much.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Warren".
